- 5.1.9 AGLC approval is required before implementing any new progressive bingo game/progressive scheme, or any revision to an existing progressive bingo game/progressive scheme.
- a) If a revised progressive bingo game/progressive scheme is approved, the facility licensee must play off the existing accumulated prize pool before implementing the approved change(s).
 - b) If a new or revised progressive bingo game/progressive scheme is approved, AGLC will assign an AGLC progressive prize pool ID number to track the accumulating prize pool funds.
- 5.1.10 The prize payout for bingo schemes must be:
- a) recorded as part of the prize payout for the game of bingo to which the scheme is tied; and
 - b) consistent with the provisions of Subsection 5.1.17 when awarded through a second element of chance.

SUBJECT: BINGO PROGRAM

5.1.11 There may be no more than one progressive element per bingo game or bingo scheme.

5.1.12 Progressive games and progressive schemes may be offered under the following conditions:

- a) progressive prize payouts must be determined by the facility licensee and comply with Section 5.3:
 - i) the progressive prize pool may be seeded as outlined in Subsection 5.3.4; and
 - ii) the value of the accumulated progressive prize must be added to the prize contribution for the event and make up the total value of the progressive prize pool eligible to be won at the event; if won, the total value of the progressive prize pool must be paid out in full. If not won, the total value of the progressive prize pool (prior event balance plus the current event prize pool contribution) must be carried over to the next event.
- b) if the facility licensee sets a cap on its progressive prize pool the facility licensee's rules of play must state the cap, fully explain how the progressive prize pool is won when the cap is reached, and how prize pool contributions over and above the cap are handled;
 - i) if capped, the facility licensee has the option of establishing two separate prize pools (one main pool and one reserve pool). Once the total value of the two pools reaches the capped maximum, the first prize pool must be played off within 14 days of the maximum being reached; and
 - ii) if it is not capped, the progressive prize pool must be awarded or played off within a 12-month period starting from the date the prize pool begins to accumulate.

- e) the hall advisor and the bingo chairperson must ensure:
 - i) the reported value of each progressive prize pool is accurate by verifying the opening and closing prize balances in EMS against the manual tracking system;
 - ii) in addition to the EMS progressive prize reporting requirements, a manual control form must be maintained for each progressive game prize pool detailing:
 - the opening balance of each prize pool;
 - the event game contribution;
 - the event payout(s) (if applicable);
 - the method of payment (cash and/or cheque); and
 - the event closing balance.

 - ii) when a progressive prize pool is won at an event, the game contribution from that event may be paid to the player in cash and the remainder (accumulated portion of the prize pool) may be paid to the player by cheque written on the progressive prize bank account;

SUBJECT: BINGO PROGRAM

alternatively, the entire amount may be paid by cheque written on the progressive prize bank account.

Note: Revenue from uncashed progressive prize cheques belongs to the member groups of the association.

- iii) if revenue from the event is sufficient to pay the full progressive prize pool in cash, the facility licensee has the option of writing a cheque for the value of the accumulated portion from the progressive prize bank account to the bingo revenue bank account and may deposit this cheque in place of the event revenue. The event revenue may then be used to pay the player the accumulated portion in cash.

Note: The cheque will replace the event cash deposit in whole or in part depending on the amount of cash available from the event revenue and the amount of funds needed to pay the accumulated portion of the progressive prize in cash.

- iv) the hall manager must review and sign (initial) the manual control forms, verify the progressive prize bank account deposits, and monitor the issuance of cheques on a regular basis throughout the month and immediately report any discrepancies to AGLC; and
- v) the facility licensee must submit to AGLC a monthly bank reconciliation with supporting documents for the progressive prize bank account; the facility licensee must verify the accuracy of each progressive prize pool balance against the information reported on EMS;
- g) the facility licensee's rules of play may require that a player's eligibility to win a progressive prize is based on the player achieving (completing) and declaring (announcing) their bingo on specific criteria which is stated in the rules of play for the progressive game/scheme. For example, the rules of play may indicate that the progressive game/scheme is won if a player completes the required pattern and declares bingo:

- h) if there is no declaration of bingo on the progressive game or scheme criteria as specified in the rules of play, the caller must ask players, at least two times, if anyone has a bingo on the required criteria (announcing to players what that criteria is) for the progressive element of the game/scheme, and pause to recognize any bingos after each ask. If there is no response, the facility licensee may announce to players that the progressive element of the game/scheme is closed and that play will continue for the event prize associated with the game/scheme.

5.1.14 Loonie Pot schemes may be played, with specified games of bingo in the bingo program, under the following conditions:

 - iv) may only be used in connection with the conduct of a bingo game; and
 - v) must not be inserted into the blower for the purpose of awarding promotional items;
- b) the facility licensee's rules of play must specify that the numbered ball that appears after the fireball determines that a bingo declared on that ball would be eligible for the fireball prize;
- c) to win the fireball scheme, the number called immediately after the fireball has been drawn from the blower must complete the required pattern for the bingo game being played and the player(s) must declare their bingo when that number is called;
- d) to determine the fireball number the caller must:
 - i) draw the fireball from the blower, announce that the fireball has been drawn, and state that a valid bingo declared on the next number called will receive the fireball prize; and

The licensee must verify, at the time a player claims to have won and before the prize is paid out, that the numbers covered on the bingo event ticket are of a winning arrangement. It may be possible to have multiple winners if a person declares a late win on the bingo event ticket game. Multiple winners must split the prize. Facility licensees must not require winners to have the last number called on their bingo event game ticket.

Note: The bingo caller must close bingo event ticket games using the procedures outlined in Subsection 1.1.12 of the Commercial Bingo Rules of Play and House Rules. In the case of a player complaint regarding the closure of a bingo event ticket game, AGLC will rule in favour of the player if these procedures are not followed.

The bingo event ticket game card must be retained for a period of 30 days after the pull ticket licence expires; and
- j) if the winner(s) cannot be determined or located within seven days of the bingo event ticket game being played, a discrepancy report must be submitted to AGLC, with the facility licensee's recommendation for disposition of the prize.

6.4.7 The facility licensee must provide each pull ticket seller with an initial float to accommodate unit sales. The cash from ticket sales must be balanced each time revenue (specified unit gross amount) from the sale of one unit is turned over to the bingo chairperson. The float will be retained by the seller to continue sales.

SUBJECT: SALES

- 6.4.8 Each pull ticket unit must have a separate container.
- 6.4.9 Provided the licensed charity is present:
- a) pull ticket sales may commence one hour prior to the start of the bingo event; and
 - b) sales and payment of winning tickets may continue for a period not exceeding one hour after the end of the bingo event.
- 6.4.10 Pull tickets must be sold within the floor area in which bingo is played or, with prior approval of AGLC and as stipulated on the licence, from an alternate location within the licensed premises other than the concession or merchandise booth. Sales must occur as follows:

 - i) the container must be:
 - clear and hard sided;
 - equipped with security locks;
 - open to viewing by buyers; and
 - capable of holding at least one unit of pull tickets.
 - ii) portable carts must:

 - provide secure storage for additional pull ticket units.
- Note: Containers may need to be removable due to rotation of sellers.
- b) in the case of floor sellers, sales must occur using an apron which has separate pockets to accommodate each type of ticket being sold, a cash float, and the winning tickets which have been cashed in.

- a) the sales must be conducted by a registered gaming worker;

SUBJECT: SALES

- b) the monies for or from the pull ticket sales must be kept separate from monies for or from lottery ticket sales; and
- c) no portion of the lottery booth will be included in the gaming floor or gaming expense allocations.

6.4.12 With traditional pull ticket units (except where tickets are pre-bundled), paid sellers must, in view of the public, empty each type of unit into a separate approved container and thoroughly mix the tickets.

6.4.13 Winning tickets with a value of \$5 and over must be:

- a) permanently defaced once the prize has been paid (e.g., such as with a black marker or hole punch); and
- b) retained until the pull ticket unit is reconciled or the unit is removed from sale at the discretion of the pull ticket manager:
 - i) if there are no major discrepancies in the reconciliation (defined as total shortage exceeding \$100 per unit deposited), the winning tickets may then be destroyed; and
 - ii) if major shortages appear, winning tickets must be retained and the pull ticket manager must immediately report the shortages to AGLC.

6.4.14 When a unit is sold out, the paid seller, hall advisor or assistant advisor must count the total cash received, remove the amount of the float (witnessed and verified by the bingo chairperson), and record any pull ticket unit shortage or overage amount. The cash, including any overage, is prepared for deposit by the bingo chairperson. The float will be retained by the seller to continue sales.

6.4.15 On a daily basis, the bingo chairperson, assisted by the pull ticket manager or hall advisor, must prepare the net revenue from the sale of pull ticket unit(s) for deposit to the pull ticket operating/pool bank account as follows:

- a) overages must be included in the deposit and reported in EMS. Shortages must also be reported in EMS;
- b) the deposit slip must indicate the serial number of each pull ticket unit being deposited. For traditional pull tickets, where

the same serial number is applicable to multiple units, the color of the unit must also be recorded on the deposit slip and the Pull Ticket Inventory and Sales Record in the same box as the serial number (e.g., Serial # 123456 blue);

- c) the funds and deposit slip must be placed in a deposit bag and the bag then sealed;
- d) the sealed bag must be placed in a secure safe within the licensed facility and deposited within three banking days after the sale of the unit(s):
 - i) for licensed facilities using an armoured car service, the deposit bag must be picked up by the service on its next scheduled pickup and delivered to the bank; and
 - ii) for licensed facilities not using an armoured car service, the bingo association must make the bank deposit.
- e) a copy of the deposit slip must be retained by the facility licensee for subsequent verification through the bank reconciliation process.

SUBJECT: SECURITY

POLICY

- 6.5.1 Once a pull ticket unit(s) has been assigned to, and opened by, a paid seller, only that individual may sell tickets from the unit(s). If the pull ticket unit has been assigned to a hall advisor or assistant hall advisor, only that individual may issue tickets from that unit to a volunteer seller.
- 6.5.2 All complete or partial pull ticket units, not under the control of a hall advisor, assistant hall advisor, or paid seller, must be kept in locked secure storage.
- 6.5.3 A separate, lockable and secure storage area must be provided to each paid seller, hall advisor, or assistant hall advisor. These individuals must store their cash boxes and partially sold pull ticket units in this secure area.
- 6.5.4 Keys to the individual storage area must be kept only by the seller, hall advisor or assistant advisor. The pull ticket manager must securely retain a "master key" which permits entrance to all paid sellers' or advisors' storage areas.
- 6.5.5 Keys to the storage area for new unopened units must be kept only by the pull ticket manager.

SUBJECT: EXPENSES

POLICY

- 6.6.1 Pull ticket expenses must be handled according to the provisions of Section 8.1 related to the bingo association annual budget/event fee and combined operating/pooling account procedures.
- 6.6.2 The bingo association must pay for the cost of pull ticket units (including GST and freight costs) direct to the supplier, from the Pull Ticket Operating/Pool Bank Account as outlined in Subsection 8.4.1 b).
- 6.6.3 Pull ticket unit purchases must be supported by a dated invoice showing the:
- a) name of the bingo association;
 - b) pull ticket licence number;
 - c) type of unit, its colour and unit serial number;
 - d) number of units bought;
 - e) price per unit; and
 - f) total amount of purchase.

SUBJECT: POOLING

POLICY

6.7.1 Only units which have been completely sold and deposited or prepared for deposit during each month must be included in each monthly pool period.

Note: Revenue representing sales of a pull ticket unit which was sold out during a month must be deposited or prepared for deposit prior to the end of that month. This will ensure that each licensed charity that held a bingo event(s) during the month is fairly compensated for sales which occurred during the month in which they conducted the event(s).

6.7.2 AGLC will review the pull ticket purchase and sales records to verify the accuracy of its pull ticket revenue; AGLC will notify the facility licensee if any corrections are required. If no corrections are required, the bingo association can proceed to deduct the event fee for the pull ticket stream to determine the proceeds to be disbursed to the licensed charities (see Subsection 8.5).

6.7.3 The pooled pull ticket proceeds must be disbursed subsequent to AGLC approval by cheque or bank transfer within 21 days of the end of the pool period. The disbursement may take place from the pull ticket operating/pool bank account or, utilizing the alternate procedure in Subsection 8.6.6, from the bingo pooling bank account.

SUBJECT: PULL TICKET FINANCIAL REQUIREMENTS

POLICY

6.8.1 Pull ticket revenue must be managed as follows:

- a) sales revenue representing the specified net revenue of each unit must be deposited to the pull ticket operating bank account within three banking days after the sale of the unit(s);
- b) all payments from the pull ticket operating bank account must be made in accordance with Subsection 8.5; and
- c) the facility licensee and hall manager/pull ticket manager will maintain accurate and current financial/inventory and sales records. The two forms, entitled Pull Ticket Inventory and Sales Record Form 5434 and Monthly Pull Ticket Inventory Reconciliation Form 5436 must be used (see Section 12 - Forms). If volunteer sellers are used, the hall advisor must also use a pull ticket seller control form.

6.8.2 Within seven days of the end of each month, the association must forward supporting documentation for the month's sales as reported to AGLC Financial Review. Pull ticket licence fee payment is due within 21 days of the following month.

Note: A Monthly Pull Ticket Sales (Deposit) Report Form 5438 must be maintained at the licensed facility for each type of unit sold and deposited throughout the month. This form(s) must be made available to AGLC upon request.

SUBJECT: REPORTING OF UNIT SHORTAGES

POLICY

6.9.1 Shortages for each type of pull ticket unit being sold must be handled as follows:

- a) manufacturer shortages must be reported to AGLC immediately;
- b) the total shortage for each unit deposited and reconciled must be recorded on the Pull Ticket Inventory and Sales Record – Form 5434;
- c) a shortage due to the redemption of a winning ticket from a previously sold unit must be reconciled with the overage from the previously sold unit (i.e., a previous surplus deposit attributable to an unredeemed ticket); and
- d) recorded in EMS for the specified pool period.

6.9.2 If a facility licensee wishes to change the type, colour, or number of tickets per unit being sold, a shortage may occur due to the unit being removed from sale before the unit specified gross revenue was accumulated. In this case the following procedures must be followed:

- a) the type of unit being sold must be as close to sold out as possible and the unsold tickets remaining may be removed from sale;
- b) the facility licensee must contact AGLC regarding the disposal of any unopened units of the pull ticket type being terminated;
- c) a final reconciliation of the type of ticket terminated must be completed (Monthly Pull Ticket Inventory Reconciliation - Form 5436), and any shortages which may have occurred must be recorded on the Pull Ticket Inventory and Sales Record - Form 5434, and reported in EMS;
- d) a copy of the Pull Ticket Inventory and Sales Record - Form 5434 for the unit type terminated must be forwarded to AGLC; and
- e) if the total unit shortage exceeds \$100, the discrepancy must be reported to AGLC immediately.

SUBJECT: REPORTING OF UNIT SHORTAGES

6.9.3 The pull ticket manager may remove a type of unit from sale for a discretionary reason. In this case the following procedures must be followed:

- a) a reconciliation of the unit type must be completed (Monthly Pull Ticket Inventory Reconciliation – Form 5436);
- b) total unit shortages for the type of unit in question must be recorded on the Pull Ticket Inventory and Sales Record – Form 5434 and reported in EMS; and
- c) if the total unit shortage exceeds \$100, the discrepancy must be reported to AGLC immediately.

The approved allowance will equal the lesser of up to 50 per cent of, or the breakeven on, the expenses noted above and marked with a double asterisk (**). The association must supply AGLC with all information that is deemed necessary to assess the request. Supporting documentation includes but is not limited to:

- a) concession financial statement; and
- b) lease agreement or ownership arrangement in regard to the facility.

8.2.5 Additional conditions apply to the following expenses:

- a) Advertising and Promotions: see Section 1.9.
- b) Association Conferences and Travel: Facility licensees with memberships in Bingo Alberta may include in their event fee structure reasonable costs of sending bingo association executive members and hall managers to meetings of Bingo Alberta. Travel costs of sending the association's hall manager to the Hall Manager's Association of Alberta may also be included in the event fee. The annual travel costs may also include sending two individuals to a bingo-related conference or seminar within North America or to send one individual to two separate bingo-related conferences or seminars within North America.

New or renewed lease agreements must be reviewed by the bingo association's lawyer and by AGLC prior to signing the agreement.
- f) Facility Reserve Fund: the establishment and collection of gaming revenue into a facility reserve fund requires association executive and AGLC approval. Single transaction reserve fund expenditures or a series of related transactions totalling more than \$20,000 must be approved by AGLC prior to the expenditure(s) occurring. The association executive and AGLC may only approve facility reserve funds to be used to meet significant future costs related to:

Note: A cost allocation between gaming and non-gaming activities may not be required if non-gaming activity was within the bingo facility floor. For example, roof repairs covering the bingo facility portion of the building envelope may be approved for up to 100 per cent to be paid with gaming funds even if the concession and lottery booth are contained within that area.

Facility reserve funds not used for the above purposes must be returned to the licensed charities. Funds collected and not used within a five-year period are subject to further review by AGLC. The facility reserve fund is not included in the calculation of a surplus at fiscal year-end; however, the balance must be reported in the event fee submission for the next year.
- g) Miscellaneous: this category is for those expenditures that may not be specifically listed in Section 8.2 (e.g., bank charges not already recorded as a pool expense). Detailed explanations of expenditures included in this category are required.
- h) Operating Reserve Fund:
 - at the start-up of the operating reserve fund, a specific dollar amount must be identified, which, when accumulated, will not exceed 25 per cent of the approved event fee budget for gaming related operating costs.
 - When the target amount is accumulated, the association must advise AGLC of the reduction in the event fee and the date that the reduction will take effect (this could be stated up front at the time of the original budget/event fee submission).
 - Associations can replenish the operating reserve fund by contacting AGLC and requesting an amendment to their event fee for a period required to replenish the fund.
 - The operating reserve fund is not included in the calculation of a surplus at fiscal year-end; however, the balance must be reported in the event fee submission for the next year.

 - v) any concession expenses that exceed the amounts permitted are the responsibility of the individual volunteer(s);
 - vi) licensed charities or the facility licensee may set their own concession policy to assist with the control of this expense (e.g., no concession expenses are allowed or the maximum per volunteer is \$5 per event); and

SUBJECT: EXPENSES

vii) volunteers may be given a coupon worth a fixed dollar amount. The coupon may be used to purchase concession items and may not be exchanged for cash.

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

POLICY

9.7.1 In this section, “expansion” means the significant physical expansion of the gaming and non-gaming areas in a licensed facility as determined by AGLC. Such expansion may include an increase in the building envelope or its outer dimensions (for facility renovations including structural changes see Section 9.9).

Note: A building envelope refers to the outer perimeter of the building in which an existing licensed facility is located and includes space rented, leased, subleased, sold or otherwise provided to others in the same building. A building's outer dimensions refer to the building height as well as its envelope.

9.7.2 Approval for the expansion of an existing licensed facility may only be issued after the requirements in the following steps are completed in order:

1. Initial Assessment;
2. Community Support; and
3. Approval.

9.7.3 If at any time the facility licensee decides it no longer wishes to pursue the application for the expansion of its facility, it must notify AGLC in writing of its decision to withdraw the application.

STEP 1 – INITIAL ASSESSMENT

9.7.4 A facility licensee initiates Step 1 – Initial Assessment by providing to AGLC a proposal in writing for the expansion of an existing licensed facility.

9.7.5 The proposal must contain all required information related to the expansion of the licensed facility, including, but not limited to:

- a) a detailed description of the proposed expansion, including all gaming and non-gaming areas that will be affected;
- b) a market assessment, including:
 - i) a three year revenue forecast, including:
 - gaming and non-gaming revenue sources (e.g., lottery booth, merchandise sales, concession food and beverage services, etc.);

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- methods and assumptions used in the market assessment; and
- a risk assessment;
- ii) a marketing plan describing how both the financial and non-financial goals will be achieved; and
- iii) the estimated economic impact to community (e.g., jobs, tax revenue);
- c) the physical design of the facility, including:
 - i) legal address, site plans, drawings, blue prints, etc.;
 - ii) the impact on traffic and parking in the area;
 - iii) a description of any additional amenities to the bingo, such as a lounge with VLTS;
 - iv) a description of the facility's security features as outlined in Section 9; and
 - v) a breakdown of the construction costs and schedule and details on who is paying for these costs;
- d) a three year business plan, including:
 - i) pro forma financial statements, including:
 - both income and balance sheet statements;
 - revenue streams broken down by gaming and non-gaming activities;
 - operational expenses categorized and described in detail; and
 - a set of statements for the bingo's operations and a combined set of statements for entire facility if other amenities exist in the facility;
 - ii) three year cash flow projections and sensitivity analysis of projections, including the:
 - total financing costs;
 - terms of financing;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- total capital (construction) and operational costs; and
- if financing is required, who will be the lender, and what are the terms of the credit agreement, etc.

Note: Any change to the legal structure or financial interests of the licensee will be subject to AGLC background checks.

9.7.6 Upon receipt of a proposal, which meets all the requirements in Section 9.7, AGLC will assess and validate the information to determine whether the proposed expansion has merit.

9.7.7 The assessment process will take into consideration factors such as, but not limited to, the following:

- a) impact to charities and gaming proceeds should the proposed licensed facility expansion take place;
- b) cannibalization of gaming revenues in the market area and surrounding areas resulting from the proposed licensed facility expansion; and
- c) impact to existing gaming facilities (e.g., RECs, video lottery retailers, bingo and casino facilities) in the existing market area.

9.7.8 The facility licensee will be advised if its submission is determined to have merit based on AGLC's assessment of the:

- a) completeness and accuracy of information in the submission;
- b) the feasibility of the proposed expansion of the facility;
- c) benefit to charities due to the proposed expansion of the bingo facility;
- d) projected gross gaming revenue. A significant proportion of the gross gaming revenue to be generated by the proposed expansion is expected to be new gaming revenue and will not be drawn from other existing or approved gaming facilities; and
- e) impact on the viability of existing or approved gaming facilities.

Note: An initial assessment that deems the expansion of an existing licensed facility to have merit does not assure the level of success or support of the licensed facility expansion.

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

9.7.9 If AGLC deems the expansion to have merit, Step Two Community Support may be initiated.

9.7.10 A proposal deemed to have merit shall not be considered or promoted as an endorsement by AGLC of an expansion of the licensed facility.

9.7.11 If AGLC deems the proposed expansion not to have merit, the approval process concludes and the expansion will be rejected.

9.7.12 The facility licensee who submitted a proposal that has been rejected by AGLC will be advised in writing of:

- a) the reason(s) for the decision; and
- b) the process to appeal AGLC's decision.

STEP 2 – COMMUNITY SUPPORT

9.7.13 Following from Subsection 9.7.9, AGLC may consider the views of the community including the views, if any, expressed by a council in relation to a proposed licensed facility expansion. AGLC may refuse to approve a proposed bingo facility expansion at any time throughout the process if it is of the view that the community is not in favour.

9.7.14 AGLC will:

- a) notify the council, through the council's chief administrative officer or municipal clerk or equivalent of the name of the applicant and details of the proposed expansion; and
- b) consider any written response of council respecting its views on the proposed expansion of the licensed bingo facility in the community.

9.7.15 AGLC will not consider any conditions placed on or attached to a council resolution respecting a licensed facility expansion in the community.

9.7.16 Applicants are required to issue a public notice in the community advising the community of the proposed licensed facility expansion in the community. The advertisement must:

- a) specify the addresses within the community affected by the licensed facility expansion;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- b) be approved by AGLC for its content and layout prior to being published; and
- c) be published in at least three issues within two consecutive weeks, where possible, in a newspaper(s) published and circulated in the community where the licensed facility is located.

9.7.17 Following from Subsection 9.7.16, the applicant must submit to AGLC a copy of the complete newspaper pages containing the advertisements.

9.7.18 If the council is silent and there is no significant demonstrated opposition respecting the licensed facility expansion in the community, AGLC at its discretion may decide to continue the approval process.

9.7.19 If AGLC at its discretion decides to continue the approval process, Step Three Approval may be initiated.

9.7.20 If AGLC at its discretion decides to conclude the approval process for the expansion of the bingo facility in the community, the process shall conclude.

9.7.21 The facility licensee who made application for the expansion of the licensed facility will be advised by AGLC in writing of:

- a) the reason(s) for the decision; and
- b) the process to appeal AGLC's decision.

STEP 3 – APPROVAL

9.7.22 Following from Subsection 9.7.19, AGLC will make a determination respecting the approval of the proposed expansion of a licensed facility.

- a) demonstrate compliance with the approved structure and amenity requirements as outlined in the application package;
- b) demonstrate compliance with all provincial and federal legislation, regulation and policies;

SUBJECT: EXPANSION OF A LICENSED BINGO FACILITY

- 9.7.24 If AGLC decides to approve the expansion of the licensed facility, AGLC will advise the facility licensee in writing it can proceed with construction.
- 9.7.25 AGLC may at its discretion refuse to approve an proposed expansion of a licensed facility if:
- a) the facility licensee has:
 - i) misled AGLC; or
 - ii) provided inaccurate or incomplete information respecting the expansion; or
 - b) the proposed expansion does not comply with the approved structure and facility requirements; or
 - c) there is a substantial change to, or circumstance affecting the validity of, the information previously provided; or
 - d) there is a substantial change to the market.
- 9.7.26 If AGLC does not approve the proposed expansion of the licensed facility under the authority of Subsection 9.7.25, the facility licensee will be advised in writing of:
- a) the reason(s) for the decision; and
 - b) the process to appeal AGLC's decision.
- 9.7.27 If the facility licensee disagrees with the decision of AGLC, it may appeal the decision in writing as follows:

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

POLICY

9.8.1 In this section, "relocation" means the relocation of an existing licensed facility for the purpose of serving its existing player base or market area; or capturing a new or different player base or market area as determined by AGLC.

9.8.2 A facility licensee may apply to relocate if there are no significant changes to the membership of the bingo association affiliated with the licensed facility, or to the bingo program or financial/inventory control system. If there are significant changes, AGLC may consider the application to relocate as an application for a new facility and require that additional information be provided.

9.8.3 Approval for or licensing of the relocation of an existing licensed facility may only be issued after the requirements in the following steps are completed in order:

1. Initial Assessment;
2. Community Support; and
3. Approval and Licensing

9.8.4 If at any time the facility licensee decides it no longer wishes to pursue the application for the relocation of the licensed facility, it must notify AGLC in writing of its decision to withdraw the application.

STEP 1 – INITIAL ASSESSMENT

9.8.5 A facility licensee initiates Step 1 – Initial Assessment by providing to AGLC a proposal in writing for the relocation of an existing licensed facility.

9.8.6 The proposal must contain all required information related to the relocation of the licensed facility, including, but not limited to:

- a) a market assessment, including:
 - i) a description of the proposed market area (including a map);

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

- ii) a three year revenue forecast, including:
 - revenue sources (bingo and other revenue sources, such as concession food and beverage services, lottery booth, merchandise sales, etc.);
 - methods and assumptions used in the market assessment; and
 - a risk assessment;
- iii) a marketing plan describing how both the financial and non-financial goals will be achieved; and
- iv) the estimated economic impact to the community (e.g., jobs, tax revenue);
- b) the physical design of the new licensed facility, including:
 - i) the legal address, site plans, drawings, and blue prints, etc.;
 - ii) the impact on traffic and parking in the area;
 - iii) a description of any additional amenities to the bingo operation such as concession food and beverage services, and any other gaming or non-gaming activities or separate business entities located within the building envelope;
 - iv) a description of the facility's security features; and
 - v) a breakdown of the construction costs and schedule;
- c) a three year business plan, including:
 - i) pro forma financial statements, including:
 - both income and balance sheet statements;
 - revenue streams broken down by gaming and non-gaming activities;
 - operational expenses categorized and described in detail; and
 - a set of statements for bingo's operations (gaming and non-gaming) and a combined set of statements for the entire licensed facility if

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

other amenities will exist in new licensed facility;

- ii) three year cash flow projections and sensitivity analysis of projections, including the:
 - total financing costs (including details of the lender and terms of the credit agreement, etc.);
 - terms of financing; and
 - total capital (construction) and operational costs.

Note: Any change to the legal structure or financial interests of the facility licensee will be subject to AGLC background checks.

9.8.7 The physical location and legal address of the proposed new facility is submitted as part of the application. It must remain unchanged throughout the process.

9.8.8 AGLC does not require municipal land use, zoning and development approval for the purposes of the initial assessment. Applicants should defer seeking appropriate municipal approvals until advised in writing by the Board as provided for in Subsection 9.8.31.

9.8.9 Upon receipt of a proposal, which meets all the requirements in Subsection 9.8, AGLC will assess and validate the information to determine whether the proposed relocation has merit.

9.8.10 The assessment process will take into consideration factors such as, but not limited to, the:

- a) impact to charities' events and gaming proceeds in both the existing and new market areas should the proposed bingo facility relocation take place;
- b) cannibalization of gaming revenues in the proposed new market area and surrounding areas; and
- c) impact to existing gaming facilities (i.e., RECs, video lottery retailers, bingo and casino facilities) in the proposed new market area.

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

- 9.8.11 The facility licensee will be advised if its submission is determined to have merit based on AGLC's assessment of the:
- a) completeness and accuracy of information in the submission;
 - b) feasibility of the proposed new facility;
 - c) benefit to charities due to the proposed relocation of the licensed facility;
 - d) projected gross gaming revenue. A significant proportion of the projected gross gaming revenue to be generated by the proposed new facility is expected to be new gaming revenue and will not be drawn from other existing or proposed gaming facilities; and
 - e) impact to the viability of existing or approved gaming facilities.
- 9.8.12 An initial assessment that deems the relocation of an existing licensed facility to have merit does not assure the level of success or support of the bingo relocation.
- 9.8.13 If AGLC deems the relocation to have merit, Step Two Community Support may be initiated.
- 9.8.14 A proposal deemed to have merit shall not be considered or promoted as an endorsement by AGLC of a relocation of the licensed facility.
- 9.8.15 If AGLC deems the proposed relocation not to have merit, the approval process concludes and the relocation will be rejected.
- 9.8.16 The facility licensee who submitted a proposal that has been rejected by AGLC will be advised in writing of:
- a) the reason(s) for the decision; and
 - b) the right to request a hearing into the matter, as provided in Section 94 of the *Gaming, Liquor and Cannabis Act*.

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

STEP 2 – COMMUNITY SUPPORT

- 9.8.17 Following from Subsection 9.8.13, AGLC may consider the views of the community including the views, if any, expressed by a council in relation to a proposed licensed facility relocation. If AGLC is of the view that the community is not in favour AGLC may refuse to approve a proposed licensed facility relocation at any time throughout the process.
- 9.8.18 AGLC will:
- a) notify the council, through the council's chief administrative officer or municipal clerk or equivalent of the name of the applicant and details of the proposed relocation; and
 - b) consider any written response of council respecting its views on the proposed relocation of the licensed bingo facility in the community.
- 9.8.19 AGLC may also choose to consider the views of adjacent communities in the specified market area that may be directly affected by the proposed bingo relocation. AGLC will follow the same process used when considering the views of the community where the proposed new licensed facility would be located.
- 9.8.20 AGLC will not consider any conditions placed on or attached to a council resolution respecting a bingo relocation in the community.
- 9.8.21 Applicants are required to issue a public notice in the community advising the community of the proposed relocation in the community. The advertisement must:
- a) specify the addresses within the community affected by the relocation;
 - b) be approved by AGLC for its content and layout prior to being published; and
 - c) be published:

9.8.22 Following from Subsection 9.8.21, the applicant must submit to AGLC a copy of the complete newspaper pages containing the advertisements.

9.8.23 At the discretion of AGLC, if the relocation of a licensed bingo facility is essentially for the purpose of attracting the same player base or serving the same market area the requirements outlined in Subsection 9.8.21, regarding issuance of a public notice in the community, may be waived.

9.8.24 Note: All applications regarding the relocation of an existing bingo facility will be posted on AGLC's website, (See Subsection 1.6).

9.8.25 If the council is silent and there is no significant demonstrated opposition respecting the bingo relocation in the community, AGLC at its discretion may decide to continue the approval process.

9.8.26 If AGLC at its discretion decides to continue the approval process, Step Three – Approval and Licensing may be initiated.

9.8.27 If AGLC at its discretion decides to conclude the approval process for the relocation of the licensed facility in the community, the process shall conclude.

9.8.28 The facility licensee who made application for the relocation of the licensed facility will be advised by AGLC in writing of:

- a) the reason(s) for the decision; and
- b) the right to request a hearing into the matter, as provided in Section 94 of the *Gaming, Liquor and Cannabis Act*.

SUBJECT: RELOCATION OF A LICENSED BINGO FACILITY

- a) demonstrate compliance with the approved structure and amenity requirements as outlined in the application package;

9.8.32 The Board may at its discretion refuse to approve a proposed relocation of a licensed facility if:

- a) the facility licensee has:
 - i) misled the Board; or
 - ii) provided inaccurate or incomplete information respecting the relocation; or
 - iii) not constructed the new facility in compliance with the approved structure and amenity requirements or within the timeframe as outlined in the application package; or

SAMPLE LEASE PROVISIONS

Bingo associations are required to negotiate and sign a lease agreement or an offer to lease in the case of a new bingo association on behalf of its member licensed charities.

- The bingo association is required to have the proposed lease or offer to lease reviewed by its lawyer. A copy of the lawyer's letter of advice shall be submitted to AGLC. Costs to have the lawyer's review done and to obtain the letter of advice may be paid for from future bingo association revenue.
 - The lease should not be signed: until it has been reviewed and recommended by the bingo association's lawyer and reviewed by AGLC for consistency with the Commercial Bingo Handbook (CBH); and, in the case of a new bingo association, until approval in principle for the new facility licence has been granted by Board of AGLC.
 - Each bingo association is encouraged to seek an independent appraisal as to the lease value of the premises and how it compares with the market value in the area. A copy of the appraisal should be submitted with the facility licensing application package.
 - The contents and drafting of the lease or offer to lease is at the discretion of the bingo association and landlord, however, the lease must not conflict with any of the policies contained in the CBH.
